

The Impact of Charitable Giving

Charitable Giving Impacts the People Mosaic Supports and the Organization

Charitable gifts help with a variety of needs at Mosaic, including things such as specialized therapies and adaptive equipment that Medicaid doesn't pay for and specific items that people may not be able to afford on their own. Gifts also help with the extras, such as tickets for entertainment outside of their day-to-day activities like a sporting event, concert or movie. The impacts of these gifts for those that Mosaic supports is often life-changing.

Gifts also impact the success of the organization. Mosaic is 99% funded by Medicaid and other government sources, but that funding will never be enough for people to have everything they need. Gifts, grants and estates allow Mosaic to invest in the future, such as through new technology, quality improvements that increase personalized services and expanding the mission to serve more people. The added financial stability also allows Mosaic to remain an independent, faith-based, nonprofit organization.

Gift dollars have purchased many of the following items for people:

Adaptive Equipment

- Specialized and/or electric wheelchair
- Accessible outdoor swing
- Modified eating utensils

Therapy

- Occupational
- Music
- Pet
- Speech

Clothing

- Coats
